HOW TO DETERMINE IN-WARRANTY TYPEWRITERS

Typewriters will be coded as to date of manufacture by a letter which will precede the serial number. The letter will represent the month of manufacture and the first number will represent the year.

The lettering system from A to M (eliminating the letter I, which could be mistaken for the number 1) will be repeated every year. The letter A will be used for January, B for February, and so on.

The first number will be changed each year to correspond to that particular year. The number 6 represents 1976, 7 for 1977, etc.

The following is an example of how the coding system works:

<u>CODE</u>	<u>SERIAL NUMBER</u>	<u>DATE OF MANUFACTURE</u>
A-9	A-9796532	January, 1979
B-9	B-9384756	February, 1979
C-9	C-9934751	March, 1979
D-9	D-9124378	April, 1979
E-9	E-9654996	May, 1979
F-9	F-9784323	June, 1979
G-9	G-9478914	July, 1979
H-9	H-9086521	August, 1979
J-9	J-9652348	September, 1979
K-9	K-9547935	October, 1979
L-9	L-9663348	November, 1979
M-9	M-9357953	December, 1979

Brother Models (Except 7500 & 7600, JP-14) warranty covers a period of 90 days for labor and 10 years on defective parts.

Brother Models 7500 and 7600 (JP-14) warranty covers a period of 90 days for labor and 1 year on defective parts.

Signature Brand (Montgomery Ward) warranty covers a period of 1 year for labor and 5 years on defective parts.

Wedgfield Brand (K-Mart) warranty covers a period of 90 days for labor and 5 years on parts.

After the 90 day labor warranty period (1 year on Signature Brand) the customer is responsible for labor charges. Brother will replace defective parts free of charge (Labor excluded) for the specified time as noted above.

A proof of purchase in the form of a sales slip, delivery receipt and/or warranty card (Montgomery Ward Service Record Card) will supersede the serial number coding system.
