First, you need to start with a kit that you like. I found two such kits and I will show you how they work and what the differences are between them. This article will look at the "Vibez Moi" and "Unwhispered Witch" kits from MACFKIT. Vibez Moi – Kit Review This is the first voice kit I did a review on for MACFKIT. I won it from the giveaway contest, or you can buy it for \$19 from the MACFKIT site. I got this for \$11 before shipping. It's a really good kit, but there is no way I could use this exact kit on all of my dolls. It is very minimal in its sound. This is the least dynamic kit on the market. This is a great kit if you are a minimalist and need a good basic kit. If you are on a tight budget, this is a great kit to start with. The other kits on this site are much more expensive and this is the reason I bought it. You have to be willing to sacrifice and buy a less dynamic kit so you can save on voice kits. If you are a minimalist and don't want to spend too much money, this is a great kit to start with. The Kit The kit comes in an envelope. There is a box in the back that contains a bag, and a doll. I was very happy with the kit, but I am not going to lie. I really hate the cardboard box. I much prefer the pillows, which is where the name "Vibez Moi" came from. The bag is not thick and it doesn't have a zipper, but it will hold everything for you. MACFKIT has really great tutorials on how to put the kit together, which I recommend to everyone. This kit also comes with an adapter that goes over the base of the doll and includes a zipper. It is a huge time saver when putting the kit together. Here is the card you get in the kit: The Card The kit comes with the following information: Vibez Moi is an affordable beginner kit for a voice kit that will give your young doll a whole new level of life! Vibez Moi is for children from age 3 to 6. It has a nice simple voice and is a great way to develop your little one! 82157476af
